The New Mexico Activities Association physical form provides schools, parents and providers with a recommended form.

If the NMAA recommended Physical Form is to be used, please ensure that your child's school grants permission to use this form and that no additional documentation is needed to gain athletic participation eligibility (i.e. parental permission form).

EFFECTIVE APRIL 1, 2020

Per NMAA Bylaw 6.15, effective April 1, 2020, the New Mexico Activities Association approved sports physical packet must be used for all preparticipation examinations and all forms must be submitted to your school prior to participation.

The packet will include the following forms:

- 1. Emergency Information Form
- 2. Medical History Form
- 3. Physical Examination Form
- 4. Consent to Treat Form

Patient Health Questionnaire Version 4 (PHQ-4) Over the last 2 weeks, how often have you been bothered by any of the following problems? (Circle response.)									
Not at all Several days Over half the days Nearly every day									
Feeling nervous, anxious, or on edge	0	1	2	3					
Not being able to stop or control worrying	0	1	2	3					
Little interest or pleasure in doing things	0	1	2	3					
Feeling down, depressed, or hopeless	0	1	2	3					
(A sum of ≥3 is considered positive on either subscale [questions 1 and 2, or questions 3 and 4] for screening purposes.)									

(Exp	ERAL QUESTIONS lain "Yes" answers at the end of this form. e questions if you don't know the answer.)	Yes	No
1.	Do you have any concerns that you would like to discuss with your provider?		
2.	Has a provider ever denied or restricted your participation in sports for any reason?		
3.	Do you have any ongoing medical issues or recent illness?		
HEA	RT HEALTH QUESTIONS ABOUT YOU	Yes	No
4.	Have you ever passed out or nearly passed out during or after exercise?		
5.	Have you ever had discomfort, pain, tightness, or pressure in your chest during exercise?		
6.	Does your heart ever race, flutter in your chest, or skip beats (irregular beats) during exercise?		
7.	Has a doctor ever told you that you have any heart problems?		
8.	Has a doctor ever requested a test for your heart? For example, electrocardiography (ECG) or echocardiography.		

COMPTENSES	RT HEALTH QUESTIONS ABOUT YOU NTINUED)	Yes	No
9.	Do you get light-headed or feel shorter of breath than your friends during exercise?		
10.	Have you ever had a seizure?		
HEA	RT HEALTH QUESTIONS ABOUT YOUR FAMILY	Yes	No
11.	Has any family member or relative died of heart problems or had an unexpected or unexplained sudden death before age 35 years (including drowning or unexplained car crash)?		
12.	Does anyone in your family have a genetic heart problem such as hypertrophic cardiomyopathy (HCM), Marfan syndrome, arrhythmogenic right ventricular cardiomyopathy (ARVC), long QT syndrome (LQTS), short QT syndrome (SQTS), Brugada syndrome, or catecholaminergic polymorphic ventricular tachycardia (CPVT)?		
13.	Has anyone in your family had a pacemaker or an implanted defibrillator before age 35?		

BOI	NE AND JOINT QUESTIONS	Yes	No
14.	Have you ever had a stress fracture or an injury to a bone, muscle, ligament, joint, or tendon that caused you to miss a practice or game?		
15.	Do you have a bone, muscle, ligament, or joint injury that bothers you?		
MED	OICAL QUESTIONS	Yes	No
16.	Do you cough, wheeze, or have difficulty breathing during or after exercise?		
1 <i>7</i> .	Are you missing a kidney, an eye, a testicle (males), your spleen, or any other organ?		
18.	Do you have groin or testicle pain or a painful bulge or hernia in the groin area?		
19.	Do you have any recurring skin rashes or rashes that come and go, including herpes or methicillin-resistant <i>Staphylococcus aureus</i> (MRSA)?		
20.	Have you had a concussion or head injury that caused confusion, a prolonged headache, or memory problems?		
21.	Have you ever had numbness, had tingling, had weakness in your arms or legs, or been unable to move your arms or legs after being hit or falling?		
22.	Have you ever become ill while exercising in the heat?		
23.	Do you or does someone in your family have sickle cell trait or disease?		
24.	Have you ever had or do you have any prob- lems with your eyes or vision?		

MED	DICAL QUESTIONS (CONTINUED)	Yes	No
25.	Do you worry about your weight?		
26.	Are you trying to or has anyone recommended that you gain or lose weight?		
27.	Are you on a special diet or do you avoid certain types of foods or food groups?		
28.	Have you ever had an eating disorder?		
FEM	ALES ONLY	Yes	No
29.	Have you ever had a menstrual period?		
30.	How old were you when you had your first menstrual period?		
31.	When was your most recent menstrual period?		
32.	How many periods have you had in the past 12 months?		

xplain "Yes" answers here.					

I hereby state that, to the best of my knowledge, my answers to the questions on this form are complete and correct.

CONSENT TO TREAT FORM

Parental consent for minor athletes is generally required for sports medicine services, defined as services including, but not limited to, evaluation, diagnosis, first aid and emergency care, stabilization, treatment, rehabilitation and referral of injuries and illnesses, along with decisions on return to play after injury or illness. Occasionally, those minor athletes require sports medicine services before, during and after their participation in sport-related activities, and under circumstances in which a parent or legal guardian is not immediately available to provide consent pertaining to the specific condition affecting the athlete. In such instances, it may be imperative to the health and safety of those athletes that sports medicine services necessary to prevent harm be provided immediately, and not be withheld or delayed because of problems obtaining consent of a parent/guardian.

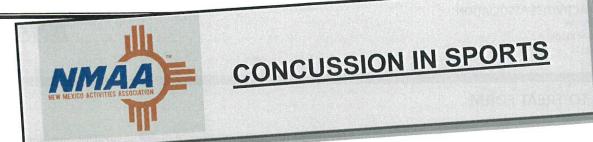

I understand that the school/district/NMAA may employ or designate QMP's (as defined above) to provide sports medicine services (as also defined above) to the school's interscholastic athletes before, during or after sport-related activities, and that on certain occasions there are sport-related activities conducted away from the school/district facilities during which other QMP's are responsible for providing such sports medicine services. I hereby give consent to any such QMP to provide any such sports medicine services to the above-named minor. The QMP may make decisions on return to play in accordance with the defined scope of practice under the designated state license, except as otherwise limited by New Mexico law. I also understand that documentation pertaining to any sports medicine services provided to the above-named minor, may be maintained by the QMP. I hereby authorize the QMP who provides such services to the above-named minor to disclose such information about the athlete's injury/illness, assessment, condition, treatment, rehabilitation and return to play status to those who, in the professional judgment of the QMP, are required to have such information in order to assure optimum treatment for and recovery from the injury/illness, and to protect the health and safety of the minor. I understand such disclosures may be made to above-named minor's coaches, athletic director, school nurse, any classroom teacher required to provide academic accommodation to assure the student-athlete's recovery and safe return to activity, and any treating QMP.

, a minor and student-athlete at

(name of school or district) who intends to participate in interscholastic sports and/or activities.

If the parent believes that the minor is in need of further treatment or rehabilitation services for the injury/illness, the minor may be treated by the physician or provider of his/her choice. I understand, however, that all decisions regarding same day return to activity following injury/illness shall be made by the QMP employed/designated by the school/district/NMAA."

A Fact Sheet for Athletes and Parents

WHAT IS A CONCUSSION?

A concussion is an injury that changes how the cells in the brain normally work. A concussion is caused by a blow to the head or body that causes the brain to move rapidly inside the skull. Even a "ding," "getting your bell rung," or what seems to be a mild bump or blow to the head can be serious. Concussions can also result from a fall or from players colliding with each other or with obstacles, such as a goalpost.

WHAT ARE THE SIGNS AND SYMPTOMS OF A CONCUSSION?

Observed by the Athlete

- Headache or "pressure" in head
- Nausea or vomiting
- Balance problems or dizziness
- Double or blurry vision
- · Bothered by light
- · Bothered by noise
- Feeling sluggish, hazy, foggy, or groggy
- Difficulty paying attention
- Memory problems
- Confusion
- Does not "feel right"

Observed by the Parent / Guardian

- Is confused about assignment or position
- Forgets an instruction
- · Is unsure of game, score, or opponent
- Moves clumsily
- Answers questions slowly
- Loses consciousness (even briefly)
- Shows behavior or personality changes
- · Can't recall events after hit or fall
- Appears dazed or stunned

WHAT TO DO IF SIGNS/SYMPTOMS OF A CONCUSSION ARE

Athlete

- TELL YOUR COACH IMMEDIATELY!
- Inform Parents
- Seek Medical Attention
- Give Yourself Time to Recover

Parent / Guardian

- Seek Medical Attention
- Keep Your Child Out of Play
- Discuss Plan to Return with the Coach

It's better to miss one game than the whole season.

Give yourself time to get better. If you have had a concussion, your brain needs time to heal. While your brain is still healing, you are much more likely to have a second concussion. Second or later concussions can cause damage to your brain. It is important to rest until you get approval from a doctor or health care professional to return to play.

RETURN TO PLAY GUIDELINES UNDER SB38

- 1. Remove immediately from activity when signs/symptoms are present.
- Must not return to full activity prior to a minimum of 240 hours (10 days).
- 3. Release from medical professional required for return.
- 4. Follow school district's return to play guidelines.
- 5. Coaches continue to monitor for signs/symptoms once athletes return to activity.

Students need cognitive rest from the classroom, texting, cell phones, etc.
